About me

Strategic professional with a strong foundation in ERP implementation and manufacturing operations. Committed to driving organizational success by leveraging technical expertise in automation and process optimization. I thrive in challenging, high-growth environments where I can apply my skills to streamline workflows, improve efficiency, and adapt rapidly to evolving business requirements.

Experience

ERP Executive

Jun 2025 - Present

Jayashree Spun Bond, Bangalore

ERP Operations Specialist with a proven track record in manufacturing production, inventory control, and sales management. Expert in bridging the gap between business requirements and technical execution. Currently leading the development and customization of ERPNext to automate core processes, improve reporting accuracy, and enhance operational visibility across four business units.

ERP Implementation Trainee

Oct 2024 - May 2025

Jayashree Spun Bond, Madurai

Successfully oversaw the partial implementation of the Deskera ERP suite, establishing core operational frameworks. This involved setting up the Material Master with structured product code conventions for the MRP module, deploying initial Sales Operations within the CRM, and configuring the Accounting module to track key business transactions. These initiatives provided a functional foundation that is currently being evolved and scaled through our transition to a custom ERPNext environment.

Project Portfolio

- Automated License Plate Recognition System
- Job Recommendation System
